

TANK ACCESSORIES

- **TANK GAUGES**

WIRELESS REMOTE TANK LEVEL MONITOR REPLACEMENT FOR ULTRASONIC WIRELESS UNIT			
CODE	DESCRIPTION		
TAWG01	Wireless Tank Level Monitor		View Product

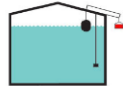

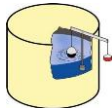

Transmits tank water level signal to receiver up to 100 metres away.

KENDERS TANK GAUGE Galvanised Mounting Fittings, 1¼" White UV Resistant PVC Pole, White Polystyrene Float and Marker			
CODE	DESCRIPTION		
KTG2	Kenders Tank Gauge c/w 2 metre plastic pole		View Products
KTG4	Kenders Tank Gauge c/w 4 metre plastic pole		
KTGP2	Pole Only Suit 2m Kenders Tank Gauge		
KTGP4	Pole Only Suit 4m Kenders Tank Gauge		Contact us

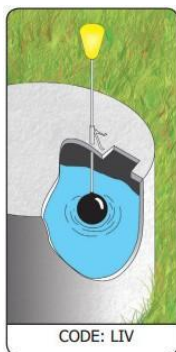

DIPSTIK TANK GAUGE Aluminium Mounting Fittings, Pole & Marker (with reflective red sticker) Black PE Float			
---	--	--	--

TANK LEVETATOR - True Level Tank Indicator Counter weight hangs inside the tank – External indicator hangs loose down side of tank.			
CODE	DESCRIPTION		
TL	Levetator c/w Plastic Pulleys & Nylon Cord (suitable for 3m high tanks)		View Products
TLBP	Levetator with Brass Pulleys & S/Steel Wire (Qld Fire & Rescue Spec)		

JOB TANK LEVEL INDICATOR - True Level Tank Indicator			
CODE	DESCRIPTION		
JOBETLI	Jobe Water Level Indicator		Contact us

LIQUIDATOR- True Level Tank Indicator

Counterweight does not contact fluid inside tank – External indicator held in place by PVC or steel guide pole (not included with units)

CODE	DESCRIPTION		
LIQ	Liquidator level indicator (suitable for 3m high tanks)		View Products
LIQ2	Liquidator MKII – Blister Packed with Adjustable Length Mounting Bracket (suitable for 3m high tanks)		

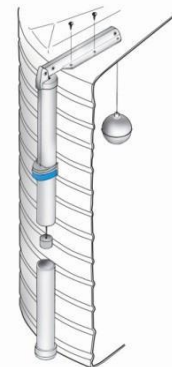

Liquidator MKII

LEVEL DEVIL TANK GAUGE- True Level Tank Indicator

Smaller version of the liquidator ideal for small household tanks

CODE	DESCRIPTION		
LD	Level Devil (For Use on tanks up to 1.8m high)		View Product

TANK GAUGE ACCESSORIES

CODE	DESCRIPTION		
S/STL WIRE	SS Wire for Levetator & Liquidator		Contact us
Brass Pulley	Brass Pulley for Levetator & Liquidator - <i>(Brass Pulleys for Fire proof gauges need to be metal construction)</i>		
MosGuard	Mosquito Guard for Levetator & Liquidator <i>(Rubber Mosquito guards for protection of cord holes, 2 for Levetator, 1 for Liquidator)</i>		
TLB	Bracket Suit Levetator & Liquidator for mounting on unroofed iron or fibreglass tanks		
TLC	Clamp to enable mounting on unroofed concrete tanks		

APEX WATER LEVEL INDICATOR - APEX 'VISIBALL'

CODE	DESCRIPTION		
VSB	Visiball – Adjusts to any Water tank roof angle Std. Length 2m		Contact us

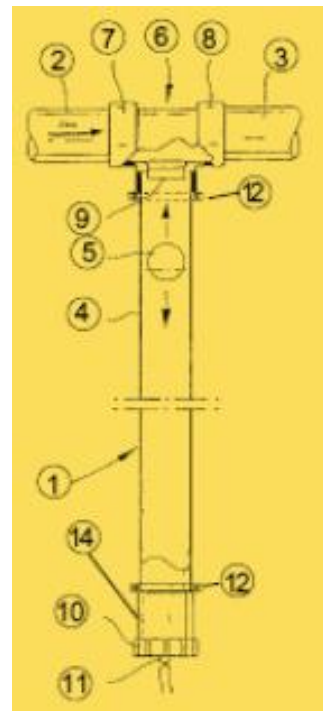

- **FIRST FLUSH WATER DIVERTER (Dry System)**

Code	Description

300mm	65

● POLYPROPYLENE TANK TOP INLET LEAF STRAINER & LIGHT GUARDS

These Leaf strainers are purpose made from UV stabilized polypropylene for use in water tanks. The Mosquito proof version comes with Qld. Regulation Mesh (identified as 'MQ' in the product code)

CODE	DESCRIPTION		
LSQ200MQ	8" screen to suit 200mm tank hole		View Products
LSQ300MQ	12" screen to suit 280mm tank hole		
LSQ400MQ	16" screen to suit 365mm tank hole		
LSQ500MQ	20" screen to suit 460mm tank hole		
Light Guards			
Light Guards mounted under Inlet Strainers to help prevent algae growth			
LG300	12" Polypropylene Light Guard only		View Products
LG400	16" Polypropylene Light Guard only		
LG500	20" Polypropylene Light Guard only		

● POLY TANK TOP INLET LEAF STRAINER & FILTER

This Inlet Filter provides final filtering of the water as it enters the tank.

Any particles (20 micron or larger) that pass through the primary mosquito proof leaf strainer are retained in the filter bag.

Features include:

1. Easy to install
2. Easy to clean, just turn inside out and hose
3. Made from food grade Polyester fabric and UV stabilized Polypropylene
4. Removable mosquito proof leaf strainer strains debris prior to the inlet Filter (included)
5. Improves water quality and filters particles down to 20 micron
6. Reduces sunlight entering tank
7. Reduces potential bacteria and algae growth
8. Cost effective

CODE	DESCRIPTION		
	Screen & Filter bag include support ring		
IF300MQ	12" (300mm) QLD Reg. Mosq. Proof Inlet Filter		View Products
IF400MQ	16" (400mm) QLD Reg. Mosq. Proof Inlet Filter		
IF500MQ	20" (500mm) QLD Reg. Mosq. Proof Inlet Filter

IF400	16" (400mm) Replacement bag		
IF500	20" (500mm) Replacement bag		

● **PVC OVERFLOW SCREENS**

These screens are made to standard PVC pipe size with aluminum gauze to meet Qld. Mosquito Regulations. Ideal for all tanks to stop insects & vermin entering the tank via the overflow.

CODE	DESCRIPTION		
SCR50PVC	50mm Poly Pipe screen		View Products
SCR75PVC	75mm Poly Pipe screen		
SCR90PVC	90mm Poly Pipe screen		
SCR100PVC	100mm Poly Pipe screen		

PVC CORRUGATED PROFILE OVERFLOW SCREENS

These screens are made of lead free PVC. The units can be fitted with 0.955mm S/S 304 Mosquito proof Screen.

CODE	DESCRIPTION

TATO06/05	90mm Combo Corro Tank O/Flow & SS Screen		
TATO17	100mm PVC & SS304 Mozzie Screen		

TATO 06 / 34

TATO 05 / 17

● **RAIN HEADS- Leaf Eater[®] & Leaf Beater[®]**

Leaf Eater & Leaf Beater rain heads are designed for heavy rainfall areas where water is captured for storage in tanks or as a debris removing device.

Both the **Leaf Eater & Leaf Beater** rain heads are designed to improve the hydraulic performance of downpipes and ensure that the gutters and downpipes do not become blocked with leaves.

For large volume down pipe flow, the **Leaf Beater** comes with an aperture adjustable elliptical primary screen to achieve the best operating setting depending on the intensity of the rainfall and amount of debris.

Upon entry, the downpipe rain water approaches a near vertical screen simultaneously filtering the debris and expelling it from the screen and thus reducing maintenance.

CODE	DESCRIPTION		
RHLE01	Leaf Eater Rain Head – dual fit 80/90mm		View Products
RHLB01	Leaf Beater Rain Head – dual fit 80/90mm		
RHLB02	Leaf Beater Rain Head – 100 mm Round		
RHLB03	Leaf Beater Rain Head – 100 x 50mm Rectangle		
RHLB04	Leaf Beater Rain Head – 100 x 75mm Rectangle		

● **MOZZIE STOPPER[™] – HI-FLOW VALVE FLAPS**

Have a double seal, are self cleaning and have flaps that cannot over rotate and remain open.

Vented flap valves allow for air flow over the surface of water which improves water

quality and prevents a vacuum forming when large quantities of water are quickly drawn from the tank. TM

Screens come in either plastic or Stainless steel.

CODE	DESCRIPTION		
TAFV01	Mozzie Stopper 50mm Vented - Plastic Flap Screen		View Products
TAFV02	Mozzie Stopper 90mm Vented - S/S Flap Screen		
TAFV04	Mozzie Stopper 100mm Vented - S/S Flap Screen		
TAFV03	Mozzie Stopper 100mm Vented - Plain Flap		

● AUTO TANK VACUUM SYSTEM

Vacuums the sediment off the bottom of the tank in the area of the out-take pipe every time the tank overflows. The systems are supplied in kit form and fit all types of tanks, including metal, plastic, concrete and fiberglass.
